The ABC’s of Assessment with English Language Learners
Erin Chaparro, Ph.D.

National Reading First Conference
July 2007, St. Louis

The Questions That Drive Your Assessment

What is the purpose of this assessment?
What question are we trying to answer?

Teamwork!!!

• Keep in mind that you are not alone.
• Lean on your teammates.
• Don’t forget your specialist!
• SPSY, SPED, & SLP especially
Building Our Background Knowledge

Important Facts and Foundations

The Most Common 5

According to State-reported data from the 2000-2001 school year ELL students speak more than 460 languages. Among those languages, the five most commonly spoken are:

1. Spanish (79.0%)
2. Vietnamese (2.0%)
3. Hmong (1.6%)
4. Cantonese (1.0%)
5. Korean (1.0%)

Drum Roll Please . . .

The five states with the largest populations of ELLs in public schools are:

1. California (1,591,525)
2. Texas (684,007)
3. Florida (299,346)
4. New York (203,583)
5. Illinois (192,764)

NCELA, 2004-2005

In both elementary (Pre-K to Grade 5) and secondary (Grades 6-12) education, more ELLs in America are native born than are foreign born.

In elementary grades, 24% of ELLs are foreign-born (first generation Americans), while 44% of secondary ELL students are foreign-born.

Adding to the Challenge: I’ll Do It My Way

Each state uses different identification and assessment measures and makes its own decision regarding cut-off scores for both entering and exiting programs designed for English language learners.
FrameThe of work

Principles of Unbiased Assessment

- Assessments in English
- Native Language Assessments
- Language vs. Literacy Assessment

Framework for Nondiscriminatory Assessment

1. Assess and evaluate the learning environment
2. Assess and evaluate language proficiency
3. Assess and evaluate opportunity for learning
4. Assess and evaluate educationally relevant cultural and linguistic factors
5. Determine the need for language(s) of assessment
6. Use multiple assessments and assessment types

7. Reduce bias in traditional testing practices
8. Evaluate and interpret the data within the context of the learning ecology
9. Link assessment to instruction and intervention

10. Assessment is always guided by the information needed

Ortiz, S. 2001

1. Assess and evaluate the learning environment
2. Assess and evaluate language proficiency
3. Assess and evaluate opportunity for learning
4. Assess and evaluate educationally relevant cultural and linguistic factors
5. Determine the need for language(s) of assessment
6. Use multiple assessments and assessment types

7. Reduce bias in traditional testing practices
8. Evaluate and interpret the data within the context of the learning ecology
9. Link assessment to instruction and intervention

10. Assessment is always guided by the information needed

Ortiz, S. 2001
Appropriate Use of Assessments

1) Consider Student Variables:
   - Educational History
   - Quality of educational program
   - Language Development (L1 and L2)
   - Acculturation
   - Environment
   - Social Issues

Assessments that are designed without the English language learner in mind are not as valid OR reliable for that population of students.

Valid and Reliable

In order to be valid, a test must be reliable.

If a test is reliable, validity is not guaranteed.

Appropriate Use of Assessments

2) Normative Samples:
   - Are they representative of your students?
   - How many students are in the normative sample that your student’s score will be compared to?
Appropriate Use of Assessments

3) Language Development:

- Will scores represent the skill being tested or the English language skills acquired?
- Does the student have adequate English reading/writing skills to take the test in English?

Chaparro 2007 23

Purpose of Assessments with ELL Students

- Provide baseline data
- Identification of status as limited English proficient
- Annual progress in ELP
- Achievement in content areas (includes progress monitoring of basic skills)

Which tests are used with ELLs?

1. Screening
2. Progress Monitoring
3. Diagnostic
4. Outcomes

Chaparro 2007 24

Which tests are used with ELLs?

- Native Language Assessments
- Language vs. Literacy Assessment

Purpose of Assessments with ELL Students

- Provide Baseline Data
- Identification of status as limited English proficient
- Annual progress in ELP
- Achievement in content areas (includes progress monitoring of basic skills)

Don’t Forget!

What is the purpose of this assessment?

What question are we trying to answer?

When accommodations are appropriate?

Guiding Questions:

- Are accommodations used during daily instruction?
- If so, does the student need those accommodations to participate in the assessment?
- If so, which accommodations are appropriate to meet the student’s needs?
Accommodations? Yes or No?

- Your halfway through administering the 3rd grade end of unit test and you notice Alejandro, a native Spanish speaker, has been resting his head on the desk for the last five minutes. Alejandro is a very fluent English speaker and reads just slightly below grade level.

Accommodations? Yes or No?

- During the assessment a 2nd grader, Margaret, a student of Korean heritage keeps raising her hand to ask “What does that mean?” You know she was born in the United States and has been at your school since kindergarten. She read about 55 wcpm on the winter benchmark. Her grandmother is her primary caregiver.

4 Accommodation Types

- Presentation
- Response
- Setting
- Scheduling

Common Accommodations

<table>
<thead>
<tr>
<th>Presentation</th>
<th>Response</th>

<tr>
<td>Direction clarification</td>
<td>Seat location</td>
<td></td>
<td>Beneficial time</td>
</tr>
<tr>
<td>Translation</td>
<td>Familiar proctor</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>
Accommodation Questions

- Does the test-maker provide approved accommodations?
- Does the test-maker describe the accommodations and the appropriate use of them to maintain validity?
- Which student needs are addressed through the accommodations?

Source: National Council of La Raza

Other Important Questions

- Which tests are required by the state?
- Which tests are required by the district?
- What guidelines are offered for choosing an assessment?
- Which accommodations are approved for use with the assessments?

Which Accommodation is Appropriate?

- Start with Test Manual for Administration and Scoring
- Follow guidelines offered by State Department’s of Education
- [http://www.education.umn.edu/nceo/TopicAreas/Accommodations/StatesAccomm.htm](http://www.education.umn.edu/nceo/TopicAreas/Accommodations/StatesAccomm.htm)

Unbiased Assessment Includes . . .

- Triangulate the data
- Use native language assessments when appropriate
Language of Instruction and Language of Assessment

The problem:
An achievement test can become a language test when a student doesn’t have adequate ELP.

The solution:
There’s not an easy answer.
- No statistical evidence to stay how fluent a student must be in order to test their knowledge and not their language.
- Development of tests in other languages has been slow.
- One test in two different languages does not necessarily measure the same concept.
Language of Instruction and Language of Assessment

Consider:
- If a student has not been instructed in their native language they have not acquired academic language.
- Language Dominance
- Language Proficiency

During the Interpretation Process

- Speak in short simple sentences
- Avoid idioms, metaphors, and slang
- Avoid jargon, use specific and clear language
- Give interpreter time to translate each message
- Look and speak to the parent or student directly
- Allow extra time

Interpreters

- Practice and review materials to be discussed
- Allow interpreter to ask questions before parent and student meetings
- Encourage interpreters to ask questions

Interpretation “No No”

- Do not under any circumstances carry on a side conversation while the interpreter is speaking or while the parent or child is speaking!!!
  - Adds distraction for interpreter
  - Shows lack of interest in what parent or student has to say
Test Administrators

- Native language assessors should have training in the terms, procedures, and rationale of the assessment process and the evaluation instruments.

Principles of Unbiased Assessment

- Assessments in English
- Native Language Assessments
- Language vs. Literacy Assessment

Administrators of the Native Language Assessments

Be familiar with:

- Ethical guidelines for interpreters
- Confidentiality guidelines
- Purpose and restrictions of standardized testing

For high-stakes testing a school psychologist or special education teacher should be present during testing.

Checklist 1.1

Choosing an Appropriate Language Proficiency Test Instrument

- What is the length of time needed to administer the assessment?
- What training, if any, is required for the test proctor? What type of training does the test manufacturer provide and at what cost?
- Is the assessment available in the languages spoken by students in the school?
- Is the test culturally responsive for the learners who will be taking it? For example, are there items on the test that would be easily understood by some ELLs but not by all of the ELLs who will be taking the test?
- What are the costs for purchasing, implementing, and scoring the assessment?
- Will the test publisher sell the test directly to the charter school, or does the charter school have to go through the local school district to obtain copies of the test? Most test manufacturers require an educator to sign documents stating that s/he will make sure that the test is kept in a secure location and will only be used for the purposes for which it was intended.
- How easy is it to order and reorder the assessment?
- What are the assessment scoring options?
- How many forms or versions of the test are available? (Students should not be reassessed or retested with the same test instrument. Whenever possible, a different form should be used.)

### Basic Assessment Types for ELLs

---

### Language and Literacy

**Language**
- Identify students as LEP
- Baseline
- Language Services
- English language proficiency

**Literacy**
- Identify skill status
- Baseline
- Literacy instruction
- Taught literacy skills performance

---

### Your Building’s ELL Assessment Capacity
Establishing Your Plan

Step 1: Determine Your Needs

Assessment needs:
* Which assessments are available for your school’s use?
* Are we giving the right assessment to answer the given question?
* Is there a need to purchase additional assessments?

Step 2: Create Assessment Plan

* PD
* Assessment Tools
* Schedules

Your Team

* Who will be the in-house experts?
* Who knows the assessments and can answer questions about them?
* Who works closely with many of the ELL students at your school?

Wait a minute . . . this sounds like a job for . . .

Building Leadership Team!!!

Include School Psychologists, Speech and Language Pathologists, and Special Education Teachers
Establishing Your Plan
Step 3: Train Assessment Personnel

- Who has been trained on the various measures?
- What training is available?
- Is everyone knowledgeable about appropriate accommodations?
- Are the tests being administered according to standardization?

Establishing Your Plan
Step 4: Collect, Manage, Interpret, Utilize the Data

- Make informed educational decisions
- Aggregate vs. Disaggregate
- Assists in goal setting
- Use it or Lose it!

Unused Data = Lost Opportunity

Case Study

Alberto (Berto)
Enrolled Spring of 2nd Grade
Oaxaca, Mexico
New Arrival

Information to Gather

- Berto and his family speak some Spanish but mostly Amuzgo, a language spoken by people from Western Oaxaca.
- Berto lives with his parents and his grandparents.
- His entire family is unable to read or write in either Spanish or Amuzgo.
- Berto has never attended school.
Tests Administered - LANGUAGE

- Woodcock-Muñoz Language Survey (2001)
  - BICS and CALP in English and Spanish
- Includes picture vocabulary, verbal analogies, letter-word identification, and dictation.

<table>
<thead>
<tr>
<th>Spanish:</th>
<th>English:</th>
</tr>
</thead>
<tbody>
<tr>
<td>• CALP 1 = very limited</td>
<td></td>
</tr>
<tr>
<td>• BICS = 2 limited</td>
<td>• CALP 1 = very limited</td>
</tr>
<tr>
<td></td>
<td>• BICS 1 = limited</td>
</tr>
</tbody>
</table>

Tests Administered - IQ

- Due to lack of fluency in either language and because we did not have a measure of Amuzgo we decided to administer a Universal Nonverbal Intelligence Tests (UNIT)
- SPSY determined that the Berto has average processing skills and above average short term memory skills for students his age. Berto has no intellectual or cognitive limitations to his learning.
- Eligible for SPED articulation services

Tests Administered - READING

Fluency Measures
- Zero on ORF in both Spanish and English
- Survey Level Assessment (back tracked)
- Berto scored zero on all fluency based measures in both Spanish and English all the way through kindergarten

Instructional Plan

- The grade level team along with specialists met to discuss the plan.
- It was determined that Berto needed intensive instructional support in reading but also in English Language instruction and articulation.
- Let’s talk about his schedule.
Tests Administered - Progress Monitoring

- Fluency Based Measures
  - Phonemes > Nonsense Words > Oral Reading
- Informal Teacher Testing
  - Taught sounds
  - Taught sight words
  - Taught vocabulary
- Intervention curriculum testing
  - End of unit tests & placement tests
  - Phonics screener

Example of Informal Teacher Assessment

Berto’s Background Information

- Difficult time adjusting to school
- End of 2nd grade was lost to many days of absence and when he was in school he was crying and at times non-responsive
- Parents came in for a meeting at the end of the year - Dad shared some of their history
- Teachers started following year with renewed dedication

Example of Informal Teacher Assessment

The Plan for Berto

- Next Year - 4th grade
- Instructional plan will include intervention comprehensive reading program
- Increased focus on vocabulary and language development - most likely impacted growth in oral reading this year

Berto’s Team

Collaboration and coordination:
- Classroom Teacher (sent informal Ax daily to other instructors)
- Reading Specialist (did standardized PM and sent results in email to other 2 instructors with graphs)
- ELL Specialist (weekly sent language objectives to other teachers)
- GL Team - Frequently spoke of Berto and helped to problem-solve
