

Take Action!

Directions:

Compare the results of the previous activities and match needs with potential parent/community providers.

- a) Make a plan and timeline for inviting participation by the appropriate parties. Assign one or more individuals to extend the invitation. At the next PD session or team meeting, follow-up and see whether the invitations and involvement were effective.
- b) For things that can't be "matched", spread the word to parents, school officials, and the community. Revisit these at your next PD session or team meeting and consider whether any new leads exist. If so, take advantage of them!
